Banner TESTING AND CHECKING EQUIPMENT

BATTERY TESTER BBT 505
1210000505

BATTERIETESTER BBT HD1+
1210000291

With this optimal tool motorbike, car and commercial vehicle batteries can be tested in seconds.

Applications

Heavy duty battery tester for measuring motorcycle, car and truck batteries.

Applications

LOAD TESTER 12V 420A

1240001800

Testing device for measuring capacity and cold start current value, LCD digital display and USB/RS232 interface.

Applications**LOAD TESTER ANALOGUE**

1210000200

Car and motorcycle battery analyses using capacity testing (up to 100Ah).

Applications**LOAD TESTER DIGITAL**

1210000225

Car and motorcycle battery analyses using capacity testing (up to 100Ah). With LED display.

Applications**LOAD TESTER 500A**

1210000230

The load tester 500A tests batteries, starters and alternators with up to 500 ampere.

Applications**BBT DIGITAL VOLTMETER DV1**

1210000121

Handy voltmeter for measuring voltage of 6/12V batteries, easily readable LCD display.

Applications**BATTERY TESTER BBT DBA**

1210000131

Handy battery tester with a large LED display and a clear charge level indicator.

Applications

Banner Chargers

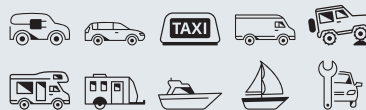

ACCUCHARGER 15A
1240000115

NEW!

Professional dual-voltage battery charger for optimum performance and longevity of all 12V/24V batteries.

Applications

ACCUCHARGER PRO 35A
1232403035

Professional device for the workshop, fully automatic battery charging system incl. 16V refresh mode for deeply discharged batteries.

Applications

ACCUCHARGER PRO 25A
1232403025

Professional battery charger, fully automatic, with special 16V refresh mode for deeply discharged batteries.

Applications

ACCUCHARGER PRO 100A

1240005100

An extremely powerful device, which guarantees the perfect charging of even very large batteries, with flash mode.

Applications**MULTICHARGER 4X5A**

1240004500

Fully automatic quadruple charger for 12V batteries, with LED display, the simplest possible operation, maximum safety.

Applications**ACCUCHARGER 2A**

1240000020

Fully automatic 6/12V charger, very latest, microprocessor-controlled technology guarantees first class battery charging

Applications**ACCUCHARGER 3A**

1240000030

Perfect all-round charger for automatic 8-step charging with automatic charge retention, with LED text display

Applications**Banner SERVICE PRODUCTS****TERMINAL PROTECTION SPRAY**

1000000110

For maintenance of battery terminals and connection terminals

**TERMINAL GREASE 1 KG**

1000000200

For protecting battery clamps.

**NEUTRALON 1L**

1010001200

Neutralises spilt battery acid

ACCUCHARGER 6A RECOVERY

1240000260

The universal charging device with fully automatic 8-step charging, special recovery mode for deeply discharged batteries.

Applications**ACCUCHARGER 10A RECOVERY**

1240000212

Fully automatic 10A charger, with special recovery mode for deeply discharged batteries, animated LED text display.

Applications**Banner STARTING DEVICES****POWER BOOSTER PB12**

1220000912

Increased-power rated Jump Starter with high performance AGM battery for all common vehicles, additional functions.

Applications**POWER BOOSTER PB12/24**

1220000924

Increased-power rated Jump Starter with two high performance AGM batteries for cars, trucks and commercial vehicles with 12V or 24V systems.

Applications

ACCUCHARGER 10A 24V

1240000124

Perfect for transporters and trucks, fully automatic 24V charger for optimum charging of large batteries.

Applications**ACCUCHARGER 25A**

1240000125

NEW!

Versatile dual-voltage battery charger for all 12V/24V batteries incl. 16V boost program for used batteries.

Applications**OBD-L MEMORY SAVER ADAPTER**

1030003100

Optimised, powerful 12V and 24V professional booster for all common cars and trucks.

Applications**P3 PRO EVO MAX**

1220000713

Powerful booster for all common cars. Switchable energy supply can also be used for mobile devices.

Applications**P12/24 START TRUCK EVO MAX**

1220000322

Optimised, powerful 12V and 24V professional booster for all common cars and trucks.
