THE POWER COMPANY

BIKE BULL

MOTORCYCLE BATTERIES

BIKE BULL

MOTORCYCLE BATTERIES DRIVEN BY

Banner POWER.

START WITH FREEDOM.

Riding a motorbike gives you that feeling of freedom without limits. The sun beating down, hot asphalt beneath the wheels and bends without end.

But it's no fun when your bike doesn't start properly. If you're looking for a perfect start every time and full power, then look no further than Bike Bull. This powerful battery offers everything a biker could want and is guaranteed to provide you with the ride of your dreams. In addition, Bike Bull also safely starts all-terrain vehicles/quads, jet skis, snowmobiles, utility vehicles and sit-on lawnmowers. The Bike Bull programme consists of over 60 battery types, divided into 4 product qualities. These are available all year round.

Motorcycles

ATV/Quads

Jet skis

Sit-on lawnmowers

Snowmobile

BIKE BULL Classic

POWER FOR THE MOTORCYCLE.

Step into the Banner brand world with products such as the classic lead batteries with electrolyte packs. The robust technology is specifically adapted to the loads when operating a motorcycle. These batteries are only opened during commissioning and maintenance.

- High load capacity
- Reliable start-up even when only driving short distances
- The comprehensive product programme includes over 30 types of batteries
- Dry pre-charged battery, including electrolyte packs

BIKE BULL AGM

STATE-OF-THE-ART AGM TECHNOLOGY FOR UNIVERSAL USE.

Banner Power for motorcycles, ATV/quads, jet skis and sit-on lawnmowers. Bike Bull AGM batteries require no maintenance whatsoever and come with state-of-the-art AGM technology (AGM = Absorbent Glass Mat). The acid is absorbed in a glass mat, meaning that it cannot leak.

- High start-up performance with safety reserves
- AGM technology
- Requires absolutely no maintenance
- Vibration-proof
- Dry pre-charged battery, including electrolyte packs

ACCESSORIES

Banner **ACCUCHARGER 2A 6/12V**

1240000020

Fully Automatic 6/12V Charger

State-of-the-art charging technology controlled by microprocessors guarantees the best battery charge, highest level of safety and extremely easy operation. Charge indicator through LED display. Ideal for charging motorcycle/vehicle batteries and safely maintaining charge over a number of months. Including mounting hooks and comprehensive accessories. Charging current 2A, charging voltage up to 14.7V.

Banner **ACCUCHARGER 3A 12V**

1240000030

Perfect All-round Charger

Fully automatic 8-step charging process with automatic charge retention, LED text display with instructions and information in EN, DE and FR.

Extremely easy to operate and maximum safety.

Including mounting hooks and comprehensive accessories.

Charging current 3A, charging voltage up to 14.7V.

BIKE BULL GEL

GEL POWER FOR OFF-ROAD AND TOURING BIKERS.

The new Bike Bull GEL product range combines innovative GEL technology and is extremely user-friendly and safe to operate. It's ideally suited to enduro and touring bikers. Bike Bull GEL is a highly-developed quality battery with a fleece separator and fixed electrolyte for a reliable start-up every time and a high degree of vibration and cycle stability.

- Reliable start-up performance
- Excellent vibration and cycle stability
- Requires absolutely no maintenance
- Completely leak-proof
- Can be assembled in a lateral position
- Pre-charged and ready for use right away

BIKE BULL AGM PRO

PROFESSIONAL AGM POWER TO MEET THE HIGHEST DEMANDS.

The new Bike Bull AGM PROfessional is the top-quality product with the quality of original parts (OE)! This premium AGM Batterie is fitted in Harley Davidsons, BMW motorcycles, bikes with ABS and extensive specialist equipment. It's also ideally suited for use in snowmobiles thanks to the reliability even in cold weather. The extreme resistance to vibration combined with the supreme start-up reliability make this tilt and leak-proof battery stand out from the competition.

- Excellent start-up performance
- Maximum vibration and cycle stability
- Requires absolutely no maintenance
- Completely leak-proof
- Can be assembled in a lateral position
- Extremely reliable, even at cold temperatures
- Pre-charged and ready for use right away
